Who are you and what do you do?

I am Kellie Ahl and I am an intuitive abstract artist.

How has your practice changed over time?

As a result of my life experience my artwork has move from the representational illustrative style of my informative years to process-led intuitive and expressive layered abstract painting. My daily personal and spiritual rituals are essential to my art practise.

What themes do you pursue?

I paint what needs to come through me inspired by my inner landscape, the energy of nature and the source of infinite wisdom.

Name three artists who have influenced your work.

Georgia O'Keeffe, Turner, Rothko.

What couldn't you live without?

Being immersed in nature - I need it like I need air to breath.
